**Verse 1**

Strategy for Regional Roads  
I think it's due this 4th of July  
Engineers will shoulder the load  
Whoops! another year has gone by!  
Highways crawling, figures falling  
because of the congestion....  
Driving down our ROI!  
Will you help us build our network  
Can we build it (yes, we can)  
And we've been waiting such a long time  
For a Strategy!

**Verse 2**

Strategy for User Pays  
I think it starts this 4<sup>th</sup> of July!  
The sooner we charge, the less we will pay  
Or we can kiss our assets goodbye!  
People walking, people riding  
breathing in the fresh air  
And getting fit as well!  
Will you help us keep our lifestyle  
Can we keep it (yes, we can)  
And we've been waiting such a long time  
For User Pays!

**Mid 8**

Economists and planners, their advice is clear as glass  
**Truss & Abbott, have still got, projects they'll pull out of their... hats!**  
But listen my friends, all is not lost...

All is not lost, no no no ....

### **Verse 3**

Strategy for the NBN

I think it's comin' 4<sup>th</sup> of July

Promised by when, again and again!

Maybe when the piggies fly!

People working, people shopping

All of it Online ... and

Staying where they are!

Will you build these co-located trench works?

Can you dig it? Yes you can!

Coz we've been waiting such a long time

For Gigabytes!

### **Verse 4**

Energy from a renewable source

Think it's coming 4<sup>th</sup> of July

Our pollies here are playing catch up, of course

So we will have to open their eyes!

How do we ensure our leaders

consult with the profession?

And take our expertise on board?

Will you help to change our culture

Can you dig it (yes, we can)

And we've been waiting such a long time..

For the change!

### **Tag**

Strategy for Water Supply

Think it was due 4<sup>th</sup> of July!

Strategy for Electric Cars

I'm sure it starts this 4<sup>th</sup> of July!

Strategy for Solar Power

Come on guys and give us a try!

Coz we've been waiting such a long time –

For a Strategy!

ends
