THE LAND OF CLOUDS REVISITED

The Biodiversity and Ecology of the Eungella Rainforests

Edited by Roger Kitching

The Society thanks the anonymous referees who reviewed papers submitted for publication in this Special Issue of the *Proceedings*. Special thanks are extended to Griffith University – Environmental Futures Research Institute, Reef Catchments natural resource management group, and an anonymous philanthropist for contributing to the costs of typesetting and printing this volume.

CONTENTS

KITCHING, R. L.	
Eungella – the Land of Clouds revisited	1
OGILVIE, P.	
The development of national parks in the Eungella region.....	5
ASHTON, L. A., LEACH, E. C., ODELL, E. H., McDONALD, W. J. F., ARVIDSSON, D. & KITCHING, R. L.	
The Eungella Biodiversity Study: filling the knowledge gap	11
STANISIC, J. & WINDOW, E.	
Land snails of the Eungella plateau and environs, Clarke Range, mid-eastern Queensland.....	23
BURWELL, C. J., THEISCHINGER, G., LEACH, E. C. & BURWELL-RODRIGUEZ, A. I.	
Dragonflies and damselflies (Odonata) of the Eungella region, central coastal Queensland, Australia	33
BURWELL, C. J. & NAKAMURA, A.	
Rainforest ants (Hymenoptera: Formicidae) along an elevational gradient at Eungella in the Clarke Range, central Queensland coast, Australia	43
KITCHING, R. L., ASHTON, L. A., ORR, A. G. & ODELL, E. H.	
The Pyraloidea of Eungella: a moth fauna in its elevational and distributional context	65
MAHONEY, M. J.	
The amphibian fauna of Eungella and their important role in unravelling the evolutionary history of the Australian east coast closed forest biota	81
MEYER, E. A., HINES, H. B., CLARKE, J. M. & HOSKIN, C. J.	
An update on the status of wet forest stream-dwelling frogs of the Eungella region.....	97
LEACH, E. C., DALY, G. & BURWELL, C. J.	
The avifauna of the Eungella region, central coastal Queensland, Australia	117
HINES, H. B., BROOK, M., WILSON, J., McDONALD, W. J. F. & HARGREAVES, J.	
The extent and severity of the Mackay Highlands 2018 wildfires and the potential impact on natural values, particularly in the mesic forests of the Eungella-Crediton area.....	139

Springs of the Great Artesian Basin

Editors

Angela H. Arthington, Renee A. Rossini, Steven C. Flook, Sue E. Jackson,
Moya Tomlinson and Craig S. Walton

Dedicated to the memory of Lynn Brake (24 August 1943 – 21 December 2019),
tireless advocate for the springs of the Great Artesian Basin

Springs of the Great Artesian Basin has been produced with generous sponsorship support from the Australian Government Department of Agriculture, Water and the Environment, and financial contributions from the Queensland Department of Natural Resources, Mines and Energy and the Australian Rivers Institute, Griffith University. These contributions have enabled the Society to have the work typeset to a professional standard and to proceed from online open-access publication of the volume to print publication, giving the work a tangible presence and long archival life. Sponsorship support from the Department of Agriculture, Water and the Environment also enabled the Society to offer a Special Session on *Springs of the Great Artesian Basin* at the Australasian Groundwater Conference held in Brisbane in November 2019. The Royal Society sincerely thanks Mrs Kate Brake for advice and support during preparation of the volume, and all authors, reviewers and editors for their contributions to this Special Issue of the *Proceedings*.

Conclusion	135

The papers in these *Proceedings* originated as briefing papers for the Rangelands Dialogue convened by The Royal Society of Queensland, AgForce and Natural Resource Management Regions Queensland in July 2019. They take the form of either short communications or opinion pieces. The editing has been conducted in a way to maintain the views of a cross-section of stakeholders from pastoralists to scientists and therefore is categorised as lightly peer-reviewed.
